

## R 133F micro-receiver

27 MHz  
40 MHz

No. F 0974  
No. F 0975

**Ultra-compact FM micro-receiver for  
model cars and boats**

### Specification:

Operating voltage:	4.8 - 6 Volts
Current drain:	8 mA
No. of channels:	3
Dimensions:	25.6 x 37.6 x 15.5 mm
Weight:	14.6 g

**An ultra-compact FM micro-receiver with short aerial, specially designed for use in RC model cars and boats.**

Successor to the proven R-123 F receiver.  
The case is now about 3 mm lower due to the use of smaller components.

Good input sensitivity, selectivity and range in spite of the small dimensions.
